

### Background

The Environmental CyberCitizens project is funded by the National Science Foundation to test a unique approach to preparing future scientists and engineers with cyberinfrastructure knowledge and skills. Your participation in the study is important to evaluate the effectiveness of this program, so we ask you to participate in a short survey to assess some expected outcomes of the program.

### Confidentiality

Your responses to this survey will only be reviewed by the Michigan Tech evaluators associated with the project. Only aggregated results from all respondents will be reported to outside agencies; that is when the results of the survey are published, no individual information will be disclosed. None of the information you provide will be associated with you or your official record. This information will only be used to evaluate the effectiveness of the Environmental CyberCitizens project.

### Duration

It should take no more than 10 minutes for you to respond to this request for information.
